Hazardous Materials

Do You Need Assistance With A Hazardous Materials Assessment?

- Do you have a federally funded transportation project?
- Does your project include ground disturbance, construction, or maintenance of existing structures?
- Do you know what hazardous materials concerns exist within your project limits or at adjacent properties?
- Does your client need a due diligence report to purchase or redevelop property?

Here's How We Can Help!

Tierra can help you complete hazardous materials assessments:

- Preliminary Initial Site Assessment (PISA) to identify and evaluate hazardous materials and associated environmental concerns for NEPA compliance.
- National Emission Standards for Hazardous Air Pollutants (NESHAP) survey of suspect asbestos-containing material (ACM) and lead-based paint (LBP) surveys.
- Phase I Environmental Site Assessments (ESA) for real estate transaction, such as property purchase, sale, refinancing, or land lease.
- Agricultural Field Soil Sampling and Analysis Report to accompany right-of-way acquisition.
- Site investigation and remediation of leaking underground storage tanks (LUSTs)
